

DISSOLVING CARD

1. Cut out the templates and fold along any score lines.

2. Attach the Window Panel to the Back Panel with double sided tape or glue as shown.

3. Slide each flap of the design on the Back Panel through the slits on the Slider.

4. Secure the open side of the Window Panel with double sided tape. Bow the Window Panel slightly as you attach it so the slider can move easily.

5. Stick the stand centrally at the bottom of the back panel to support the card. The Dissolving Card is ready to decorate and embellish.

WATERFALL CARD

1. Cut out the templates and fold along any score lines.

3. Fold the Card Base in half. Place double sided tape on the bottom edge of the Waterfall piece.

5. Fold the top of the Waterfall piece back in itself and slot this through both slits on the Card Base so that it creates a pull tab at the bottom.

2. Use double sided tape or glue to stick the edge of Topper 1 underneath the second central score line on the Waterfall piece. Stick Topper 2 underneath the next score line and repeat this with Toppers 3, 4 and 5.

4. Slot the Waterfall piece through the top slit in the Card Base and stick the Waterfall section to the back of the card.

6. When you pull the bottom tab up and down the Toppers will create a Waterfall effect. Your card is now ready to decorate and embellish.

HEXAGON EXPLODING BOX

1. Cut out the templates and fold along any score lines.

2. Place double sided tape or glue along the tabs of the Side Panels and stick to each side of the Base.

3. Take the Lid and place double sided tape or glue on the tabs, fold them in and stick to the adjacent straight edge as you do along.

4. Fold up the Side Panels and place the Lid on the box. Decorate and embellish as required.

STAR BOX

1. Cut out the templates and fold along any score lines.

2. Fold the Side Panels into a concertina and join the two lengths together using the tab with double sided tape or glue. Repeat with the Lid Side Panels.

3. Fold all the tabs up on the Base and the Side Panels to them, fitting the concertina to the points of the star. Repeat this with the Lid and Lid Side Panels. The box is ready to decorate.
