

HOUSE FOLD CARD

Cut out the template, score along the dotted lines and cut along the solid lines. If you are using the SVG version these will have been done for you.

Valley fold along the green dotted lines and mountain fold along the red dotted lines.

With the template in landscape format, fold each bottom corner inwards to fold up the card. The point will fold over each and sit within the folded card.

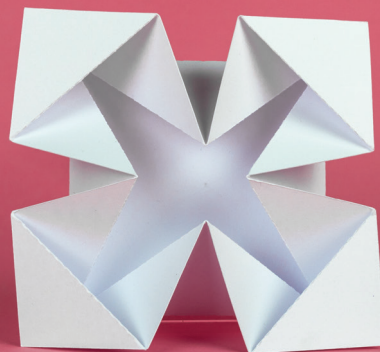

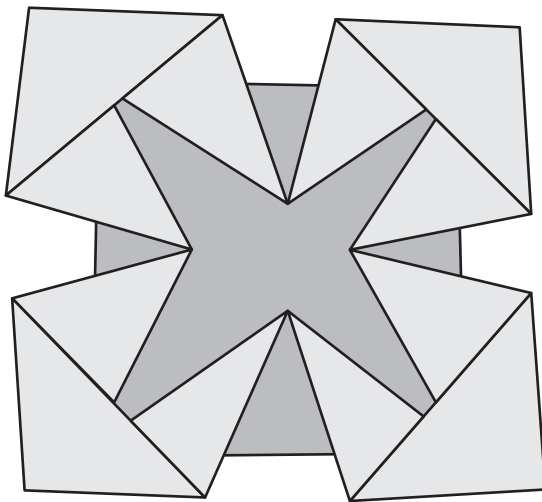

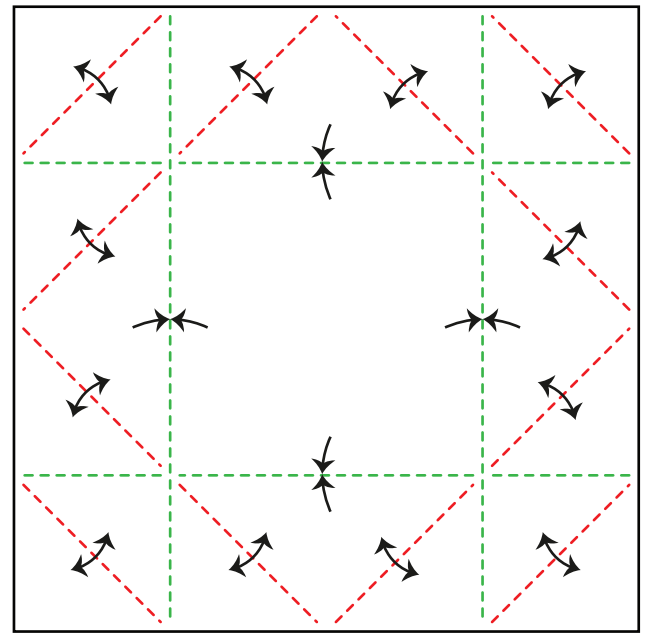

ORIGAMI FOLD CARD

Cut out the template, score along the dotted lines and cut along the solid lines. If you are using the SVG version these will have been done for you.

Valley fold along the green dotted lines and mountain fold along the red dotted lines.

Fold the template by pulling the corners into the centre square. The template should fold into itself as seen in the diagram and photo.

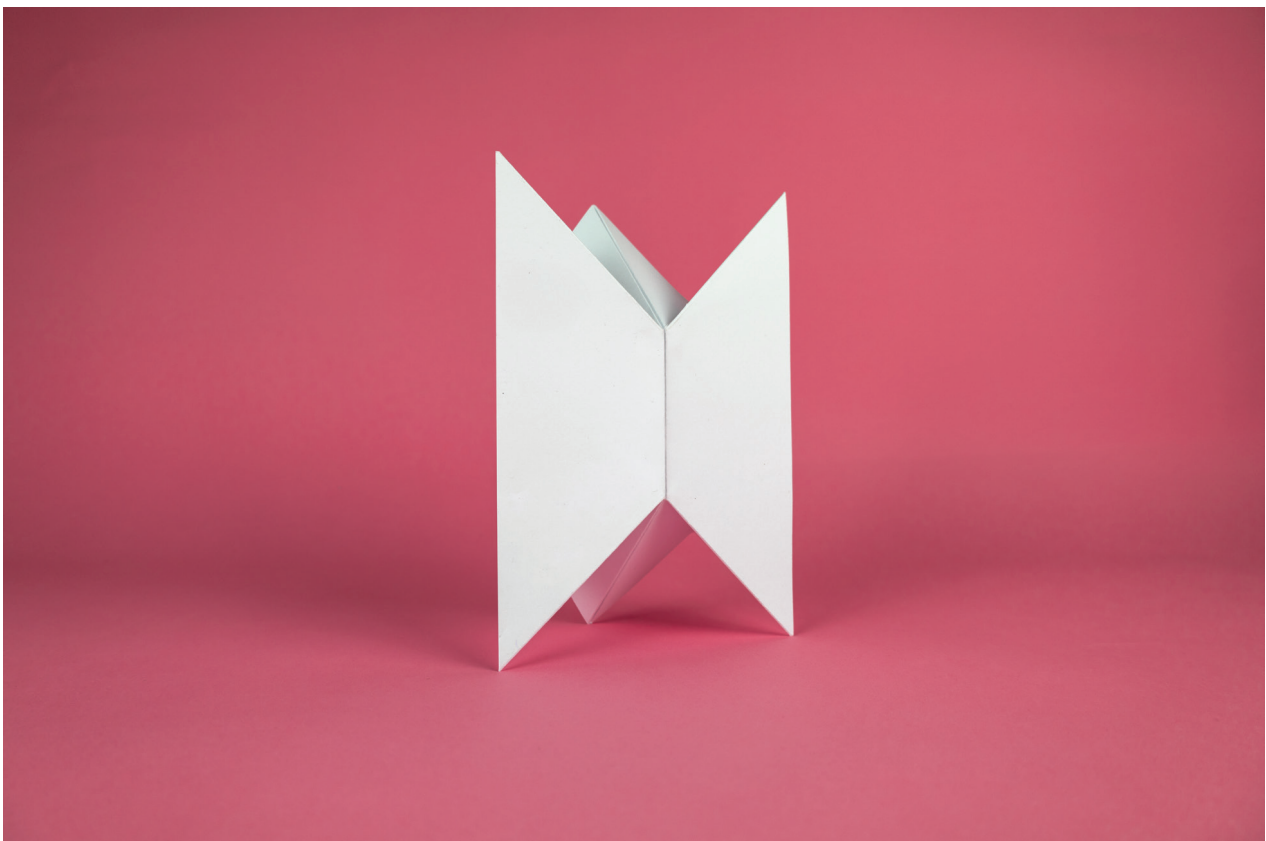

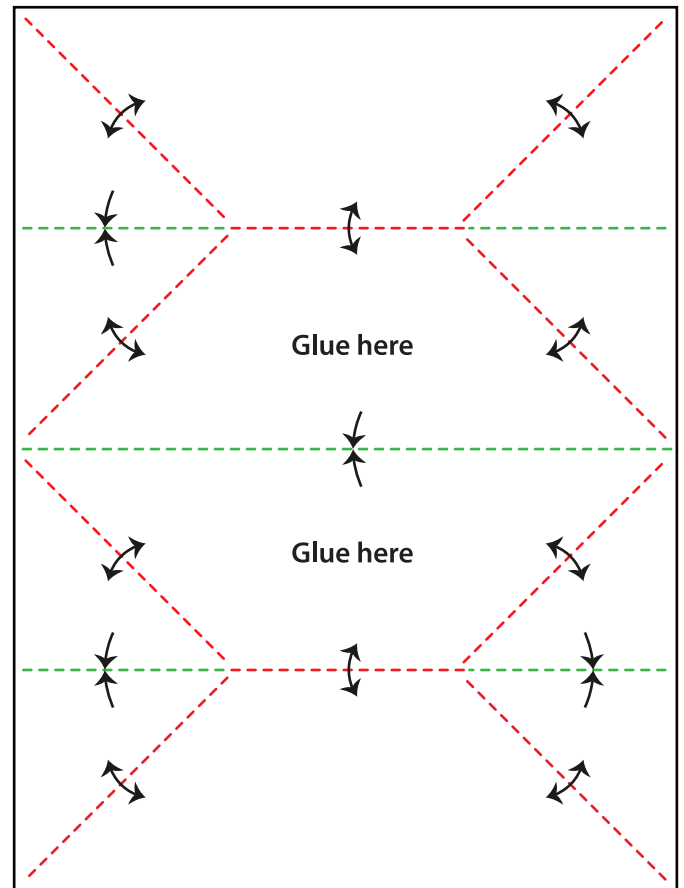

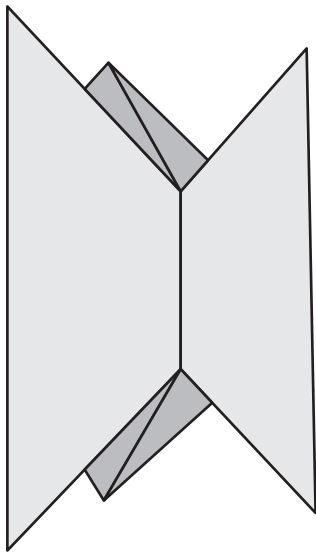

TRICORN FOLD CARD

Cut out the template, score along the dotted lines and cut along the solid lines. If you are using the SVG version these will have been done for you.

Valley fold along the green dotted lines and mountain fold along the red dotted lines

Fold up the template and glue the inner two panels of the card together to help the card stand.

TUNNEL CARD

1. Cut out the template, score along the dotted lines and cut along the solid lines. If you are using the SVG version these will have been done for you.
2. Valley fold along the green dotted lines and mountain fold along the red dotted lines.
3. Concertina the folds on each side of the card. Glue the last fold on each side to the side of tunnel card back panel to create the tunnel card.
