

CHEST OF DRAWERS

1. This chest of drawers is made in 2 sections. The four drawer unit is one section, and the large drawer unit is another section.
2. To make the 4 drawer unit, glue the Back piece onto the Base piece.
3. Glue one of the Side pieces onto the Base and the Back piece.
4. Glue and insert one of the Shelf pieces into the grooves on the Side piece and glue to attach to the Back piece.
5. Glue and insert the Shelf Upright piece into the grooves on the Base piece and Back piece and slot the notches from the Shelf already in place into the Shelf Upright.
6. Glue and insert the other Shelf piece into the Shelf Upright and glue to attach to the back.
7. Glue the other Side piece to the Base, Back and Shelf pieces.
8. Glue the Top piece to the Sides and Back pieces.
9. To make the large drawer unit, glue the Large Drawer Frame Back onto the Large Drawer Frame Base.
10. Glue the Large Drawer Frame Sides onto the base and back pieces.
11. Glue the Large Drawer Frame Top onto the sides and back pieces.
12. Glue both units together, either large drawer unit on the top or the bottom. Or if you prefer, leave them separate.

13. The small drawers and large drawers can be made in the same way. To make the drawers, take the Base and glue the Back piece to the back edge of the base.
14. Glue the side pieces to edge of the Back and Base pieces.
15. Glue the Front to the Sides and Base.
16. Repeat steps 12 to 14 for the remaining drawers.
17. Insert the drawers into the unit.
