

CHOCOLATE BOX

1. Cut out the template, score along the dotted lines and cut along the solid lines. If you are using the SVG version these will have been done for you.
2. Valley fold along the green dotted lines.
3. Fold the template and glue each tab to their adjacent sides to create the base and lid of the box.
4. Close the box lid to finish your box. Decorate with your mats & layers. If using the SVG mat & layers, all layers are on one file. Please delete the files you don't want before cutting.
