

3D BOX FRAME CARD INSTRUCTIONS

BY VIKKI DEAKIN

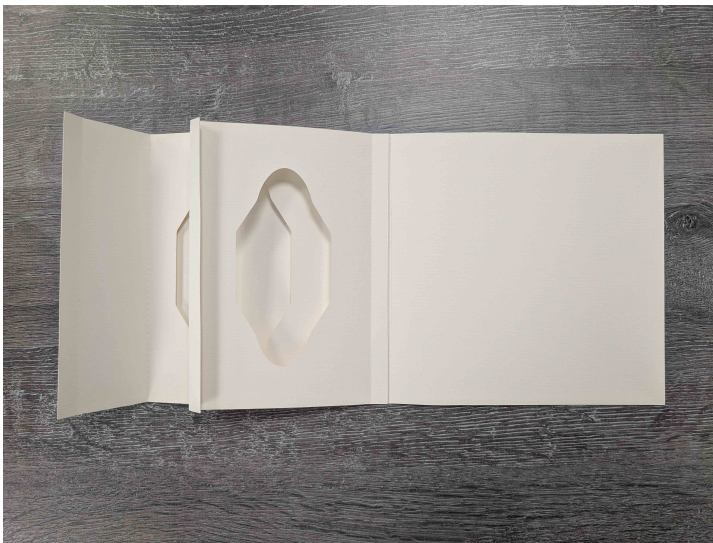

1. Cut all template pieces and score and fold where instructed to. Attach the Card Front to the Card Back using the tab.

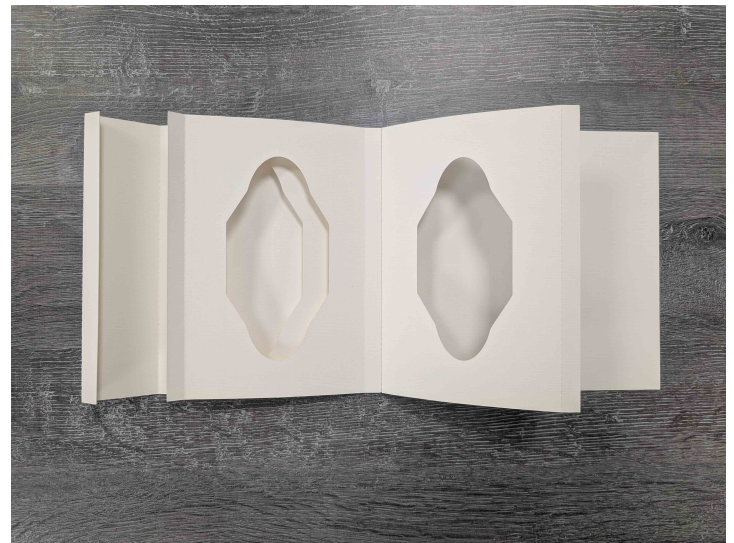

2. Take the Box Frame Front and attach the larger tab onto the left hand side of the inside of the card base, lining it up with the centre fold.

Please note: add your mats and layers and decorations to each inner panel as you build the card.

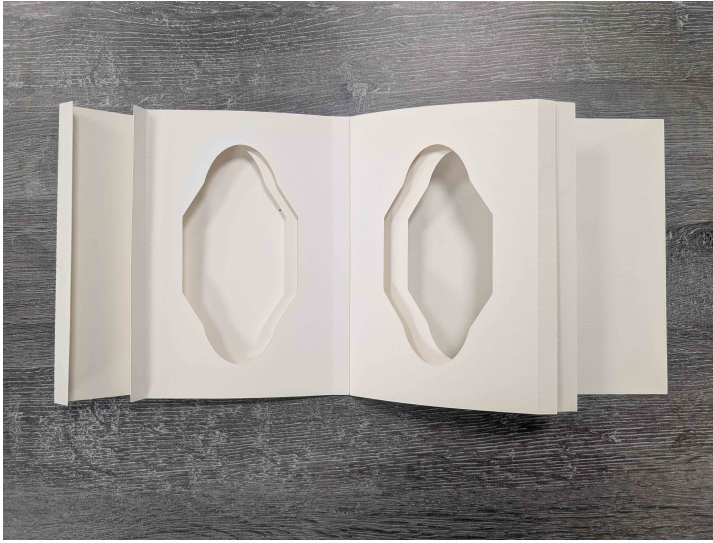

3. Starting with Box Frame Inner Panel 03, attach one tab to the left hand side of the inside of the card base, again lining up it with the centre fold.

4. Fold the panel you have just added to the right. Attach Box Frame Inner Panel 02 to the left hand side of the card butting it up to the fold of the previous panel.

3D BOX FRAME CARD INSTRUCTIONS

BY VIKKI DEAKIN

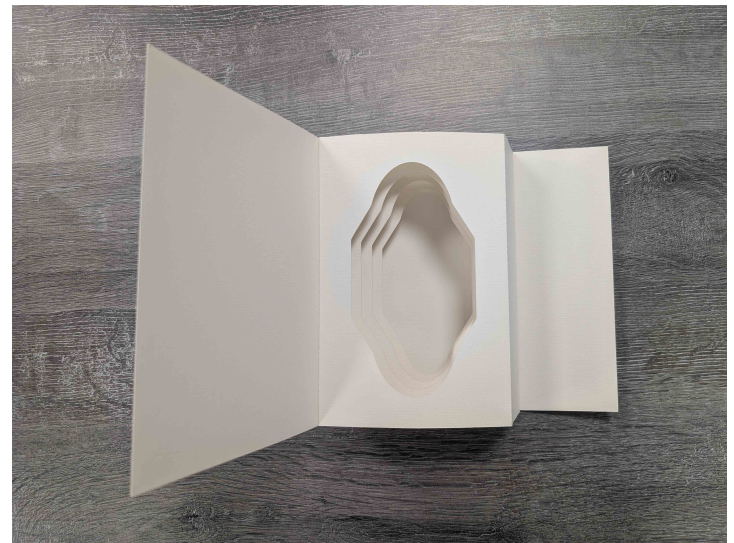

5. Fold the panel you have just added to the right. Attach Box Frame Inner Panel 01 to the left hand side of the card butting it up to the fold of the previous panel.

6. Fold all the tabs on the other side of the inner panels inwards so they are flat and apply adhesive.

7. Fold the large panel from the Box Frame Front over onto the inner panel tabs so everything lies flat. Apply adhesive to the tab.

8. Fold the card front over, keeping all the inner panels flat and stick the tab onto the inside back of the card. Open up to reveal your Box Frame.
