

3D BOOK INSTRUCTIONS

BY KATH WESTWOOD

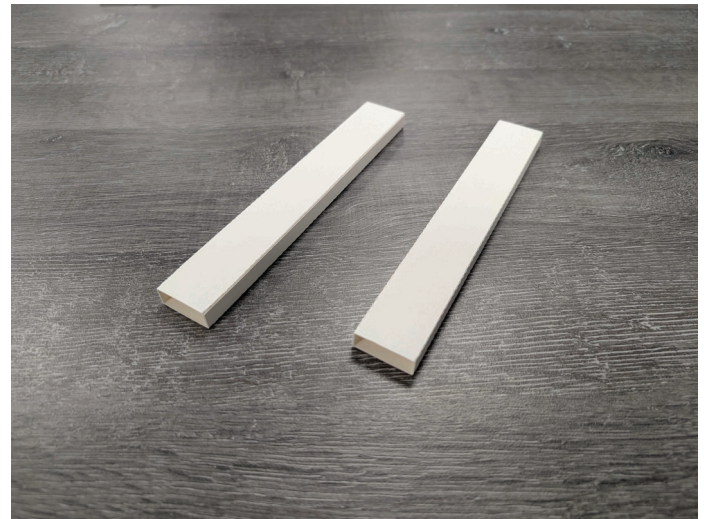

1. To create the book cover, fold the tabs on each Book Cover piece and glue or double sided tape to the tabs. These will be glued onto either side of one of the Spine Cover pieces.

2. Glue the other Spine Cover piece onto the Book Cover to hide the tabs. This is your complete Book Cover .

3. On the right hand side of the book cover, measure in 2mm from top, bottom and right edge and make a mark as a guide. Fold the score lines on the Frame Top and Bottom pieces. Add double sided tape or glue to the one of edge tabs. on both pieces. Attach one to the top edge, and one to the bottom edge of the card in line with your guide.

4. Fold the score lines on the Frame Side pieces and glue the end tabs together to create a "tube".

3D BOOK INSTRUCTIONS

BY KATH WESTWOOD

5. Attach the folded tubes down the side of right hand side of the book cover, so the sit within the frame top and bottom pieces.

6. Fold over the Frame Top and Bottom pieces and glue them to the Frame Sides. It is at this point you would decorate the inside of your book.

7. Attach the Top Frame to Frame Top, Bottom and Sides with glue or double sided tape.

8. Shape the Curved Spine piece by slightly rolling it. This will help when it comes to attaching. Fold the tabs and attach to the spine with strong glue or double sided tape. Decorate your 3D Book as desired.
