

CONCERTINA POCKET CARD INSTRUCTIONS

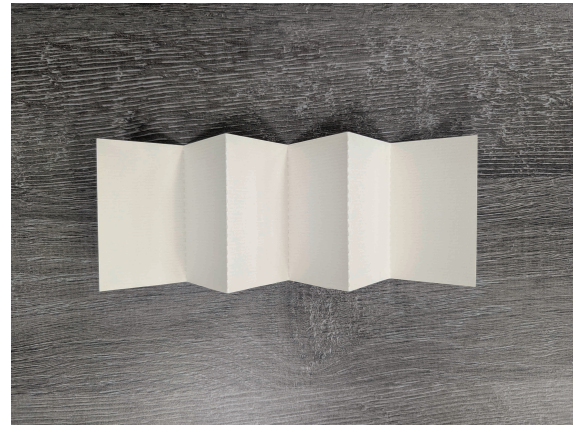

1. Cut out the Base Card template piece and score & valley fold on the score lines where instructed. If you are using SVG files these will be done for you the score lines are done for you.

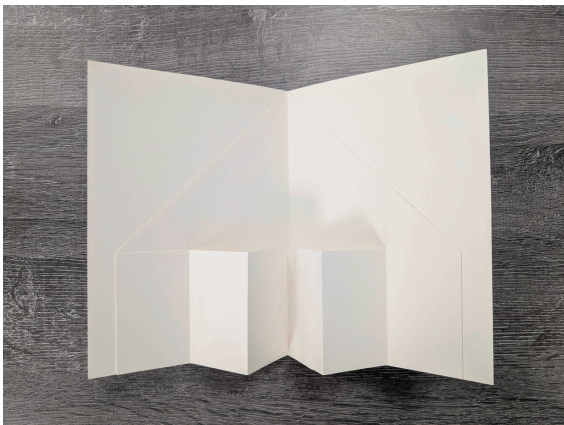

2. Cut out the Inner Card template piece and score & valley fold on the score lines where instructed. If you are using SVG files these will be done for you the score lines are done for you. Stick the left side of the inner card to the inside left of the base card leaving the diagonal edge unstuck.

3. Repeat with the right hand side of the inner card to create two pockets.

4. Cut out the Concertina Piece and score and valley fold on the score lines where instructed to create a concertina. If you are using SVG files these will be done for you the score lines are done for you.

5. Stick the end panels of the concertina piece to the inside of the inner card so the ends match up with the edges of the inner card.
