

EXPLODING BOX INSTRUCTIONS

BY VIKKI DEAKIN

1. Cut out all template pieces and score and fold on the score lines where instructed. If you are using SVG files these will be done for you. Using the Large Exploding Box, valley fold all horizontal and vertical score lines and mountain fold the diagonal lines.

2. Using the Medium Exploding Box, valley fold on the score lines and mat the middle square onto the middle square of the large box.

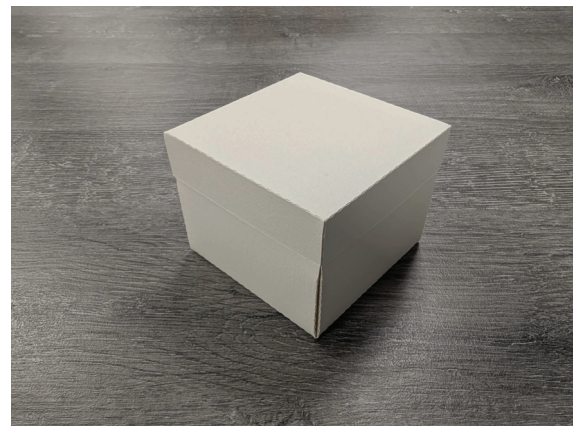

3. Using the Small Exploding Box, valley fold on the score lines and mat the middle square onto the middle square of the small box.

4. Using the Exploding Box Lid, valley fold on all the score lines. Add glue or double sided tape to all the tabs and start to attach the tabs to the inside of the lid sides.

5. Repeat for the other tabs to complete the box lid.

6. Fold up the Large Exploding Box and place on the lid to keep the box closed.
