FLASH CARD INSTRUCTIONS

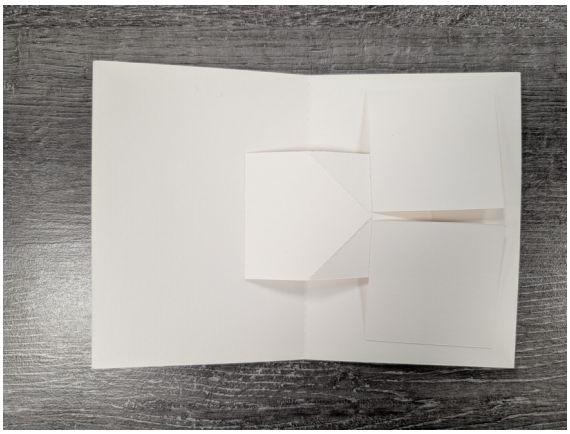

1. Cut out all template pieces and score and fold where instructed. Fold the Mechanism piece as shown in the image above.

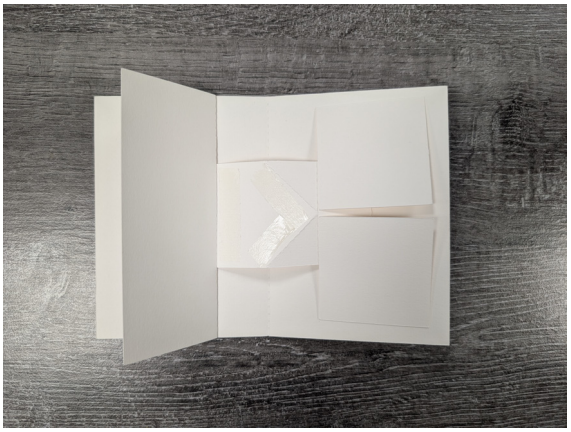

2. Fold the Card Base in half. Attach the Mechanism piece left hand side of the card base so the larger tab lines up with the centre fold.

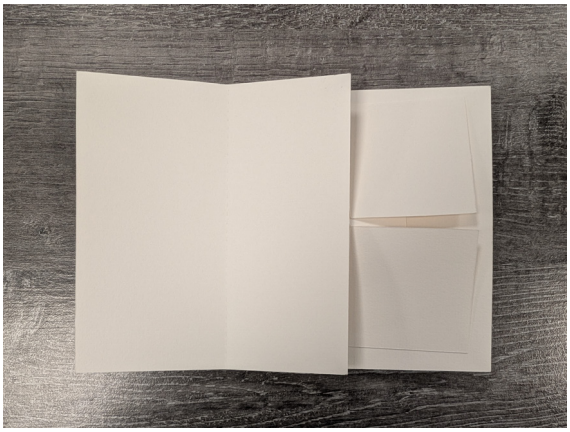

3. Fold the Mechanism over and stick the other tab to the right side of the card so the Mechanism folds flat.

4. Attach the Flash Cards onto the right traingle sections of the Mechanism.

5. Fold the Inner Panel in half. Attach the wider side to the left side of the Card Base so it lines up perfectly. Add glue to the left part of the Mechanism.

6. Close up the card so the Inner Panel attaches to the Mechanism.
