

STANDING STAR CARD INSTRUCTIONS

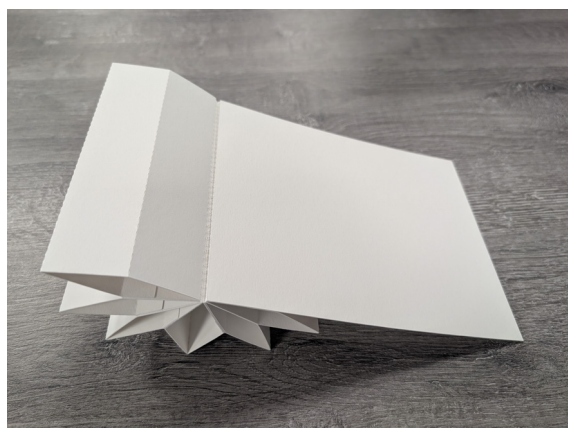

BY VIKKI DEAKIN

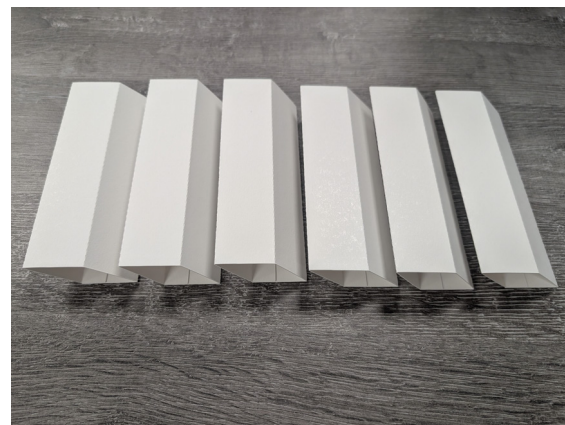

1. Cut out all template pieces and score and fold where instructed. Fold up the Star Segment pieces and glue one end to the tab end to create a tube.

3. Start to build up your star by gluing one panel of the tube to the panel of another tube.

5. Glue the Card Base to one of the inner segment panels.

2. Repeat with all Star Segment pieces until you have six tubes.

4. Continue gluing the segments together making sure you are gluing the same panel each time. When you get to the end, leave the star open.

6. Close up the star and glue the last inner segment panel to the card base to finish the card.
