

TWIST & POP CARD INSTRUCTIONS

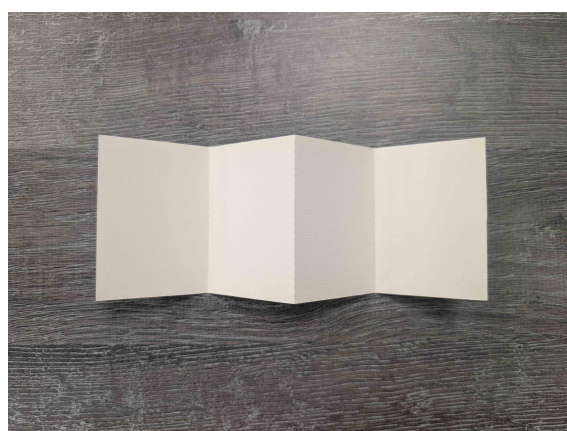

BY LOU PATTEN

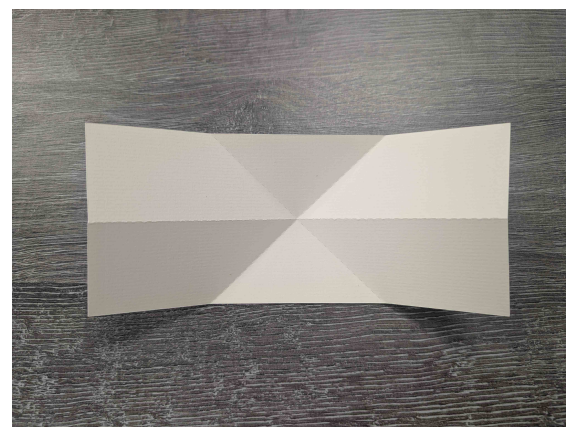

1. Cut out all template pieces and score and fold where instructed. Fold the Card Base in half to create a tent card.

3. Fold up the Twist Mechanism and stick the bottom triangle section onto the base of the card so the point is butted up to the centre fold of the card.

5. Concertina fold the Pop Out template piece so the outer folds are valley folds and the inner fold is a mountain fold.

2. Fold the Twist Mechanism so the diagonal lines are valley folds and the horizontal line is a mountain fold.

4. Add adhesive to the top triangle section of the Twist Mechanism and fold the top of the Card Base down to stick.

6. Mat the left concertina panel onto the bottom left section of the Twist Mechanism, halfway in from the edge of the concertina panel. Repeat with the right concertina panel of the top right section of the Twist Mechanism.
