

MAGICAL POP OUT CARD

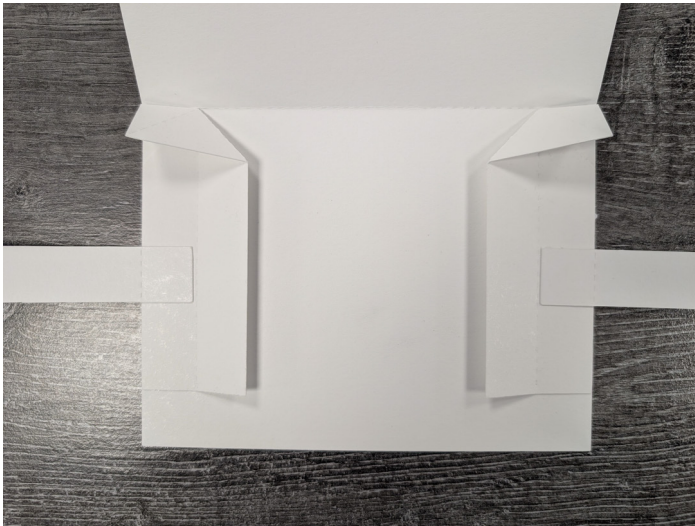

BY VIKKI DEAKIN

1. Cut out all template pieces and score and fold on the lines where instructed. Fold the Card Base in half along the score lines.

2. Attach the Pop Out Mechanism 02 pieces to the Pop Out Mechanism 01 pieces lining the fold of the tab up with the edge of the piece as shown above. If you are using the stencil you will only have one stencil for Mechanism 01, you need to cut one, then flip the stencil to cut the other piece.

3. Attach the mechanisms to the bottom of the card base so they line up with the edge of the card and the triangle cut outs line up with the centre fold.

4. Attach the top triangle tabs of the mechanisms to the top of the card base.

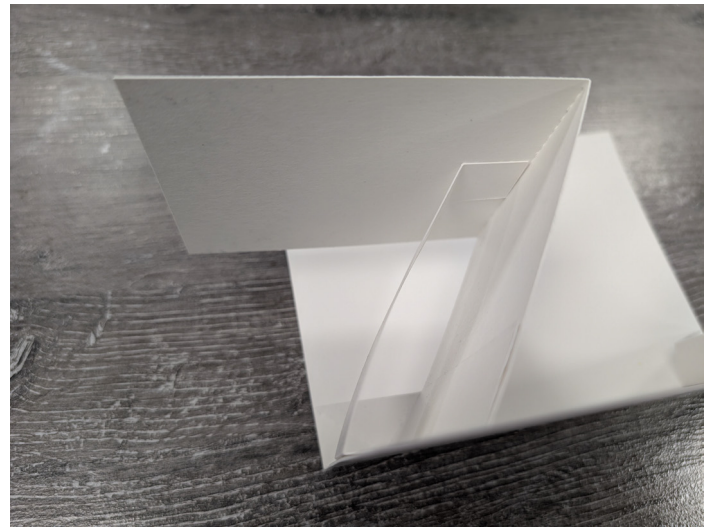

MAGICAL POP OUT CARD

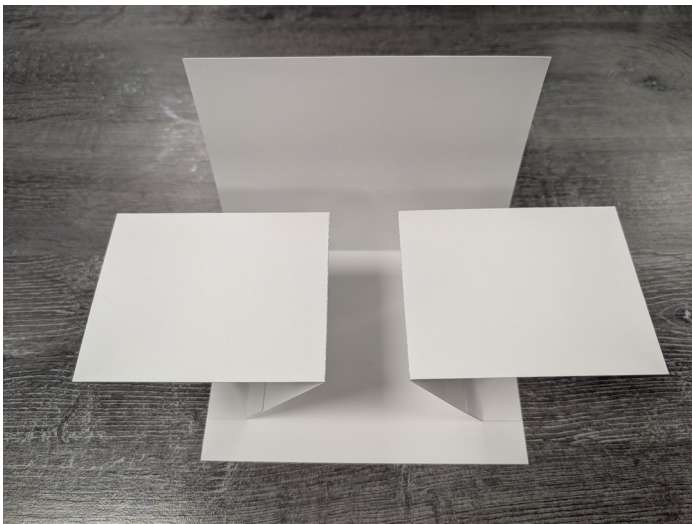

BY VIKKI DEAKIN

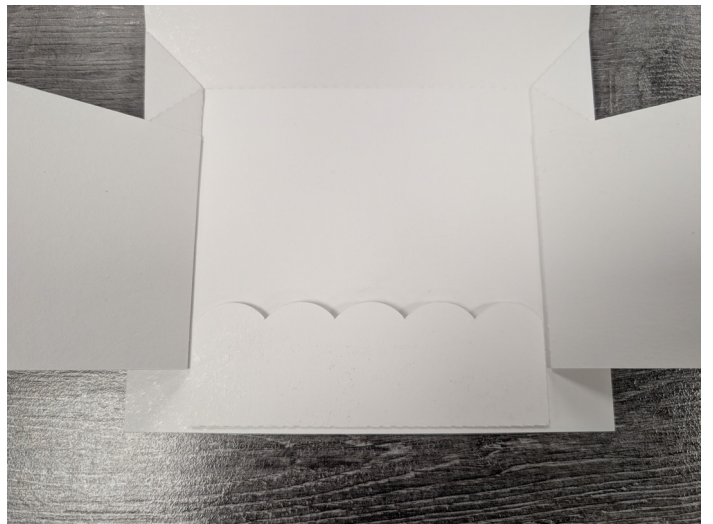

5. Attach the Inner Pop Out Card Left piece to inside of the left mechanism.

6. Fold up the mechanism underneath and attach to the underside of the pop out card so it sits against the fold.

7. Repeat on the other side with the Inner Pop Out Card Right. If you are using the stencil, then you will only have one stencil for the Inner Pop Out Card. Cut one for the left side, then flip the stencil to cut one for the right hand side.

8. Fold in the tabs of the Inner Pocket and attach to the inside of the card between the two pop outs.
