

DOUBLE DIAMOND TOP CARD

1. Cut out the template, score along the dotted lines and cut along the solid lines. If you are using the SVG version these will have been done for you.
2. Valley fold along the green dotted lines and mountain fold along the red dotted lines
3. With the template in a landscape format, push the outer edges inwards as you fold the template in half and the template should fold into itself as seen in the diagram and photo.
