

## HANDBAG BOX

1. Cut out the template, score along the dotted lines and cut along the solid lines. If you are using the SVG version these will have been done for you.
2. Valley fold along the green dotted lines.
3. Fold in the bottom side tabs. Fold up the front and back of the bag. Fold in the back sides, then fold over the front sides and glue to create the bag.
4. Fold over the bag flap and add a craft magnet or hook & loop to keep in place. Decorate with your mats & layers. If using the SVG mat & layers, all layers are on one file. Please delete the files you don't want before cutting.
