

You can use the shapes in your ScanNCut to create your very own boxes, and in the 6pm show on Tuesday 14th July, Mel show's how you can create one perfectly sized for the Fan Box Card.

Click to watch the show below, and we've included details of the measurements used.

Inside Box: Front & Back

- Rectangle: 128mm high by 105mm wide. Cut 2.
- Side tabs: 20mm high by 128mm wide. Cut 2.
- Bottom tab: 20mm high by 105mm wide. Cut 1.

Inside Box: Back & Sides

- Base: 31mm high by 105mm wide. Cut 1.
- Sides: 128mm high by 31mm wide. Cut 2.

Outer Box

- Select the saved files from the inner box.
- Resize the front and back files to 148mm high by 129mm wide.
- Resize the sides to 137mm high by 33mm wide.
- Resize the top to 33mm high by 108mm wide.

Handle

Select a basic square and resize to 14mm high by 135mm wide. Duplicate it and resize the second one to 14mm high by 123mm.
