INSTRUCTIONS

Step 1

Print out your chosen fan design and cut it out carefully with a craft knife.

Step 2

Score along all dotted lines with a ruler and embossing tool.

Step 3

Fold the fan like a concertina for each of the sections scored.

Step 4

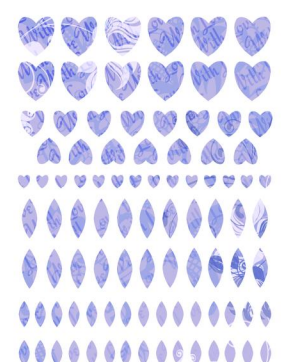

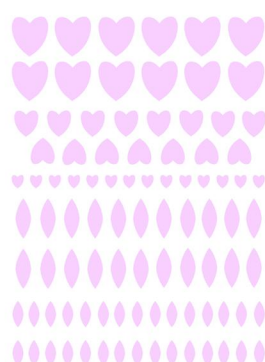

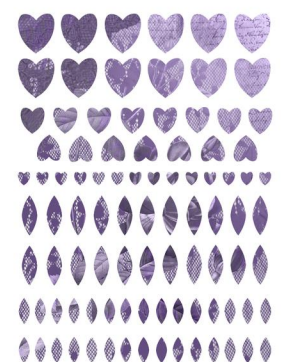

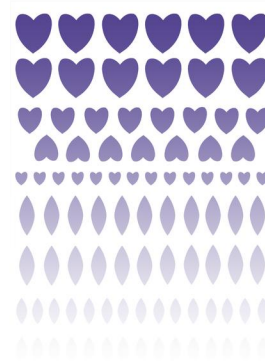

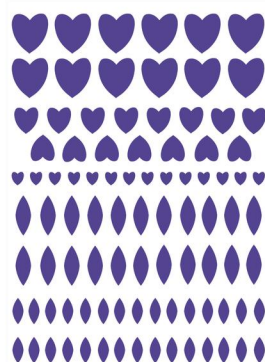

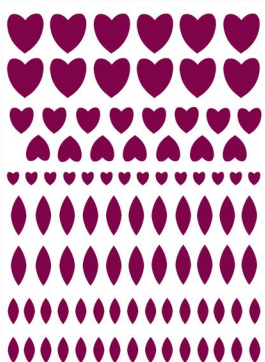

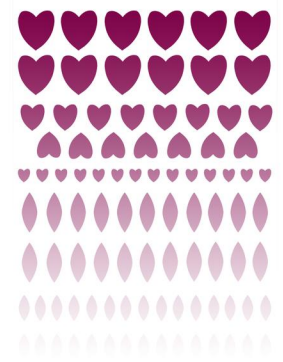

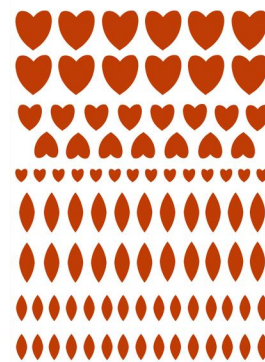

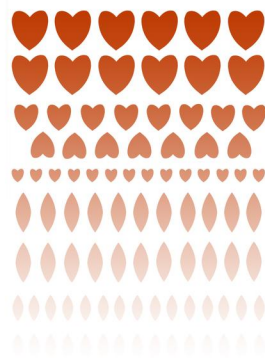

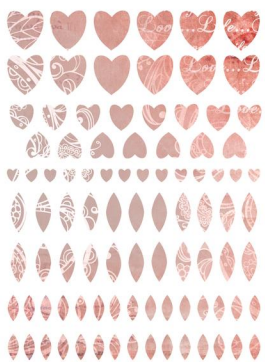

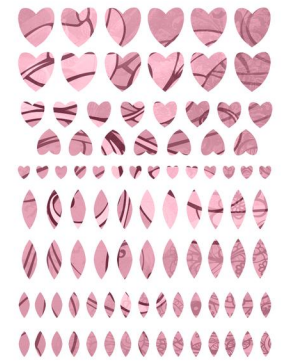

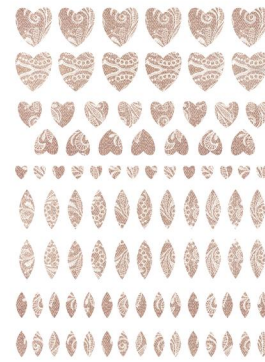

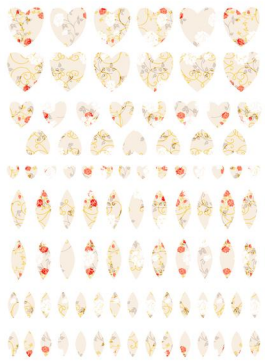

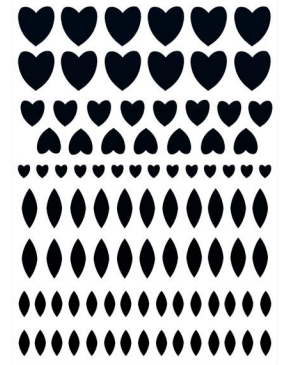

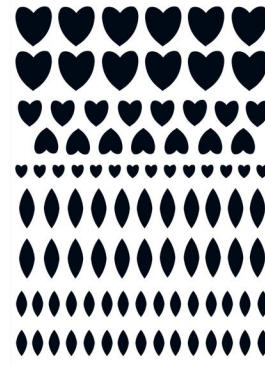

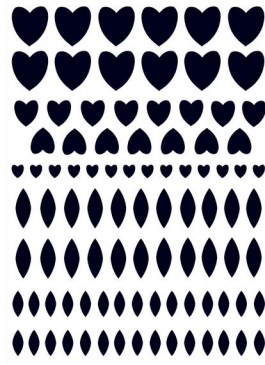

In each of the folded sections at the bottom end of the fan, put a small amount of glue and pinch together. Repeat this for each section until the fan is closed. Decorate and embellish as required.

T-BAG FOLDING
INSTRUCTIONS

You will need:
T-Bag Folding Sheet printed from
your My Craft Studio CD ROM
A small pair of straight edge scissors
3D foam squares,
glue or double sided tape
Blue square card
Small white off cut
Small yellow brad

Step 1
Cut ten squares from your sheet and fold eight of them in
half to form a triangle. To complete the fold bring the end corners
of the folded line back across the triangle and up to create a kite
shape with a little pocket at the front.

Step 2
Find the centre of your square card and use this point to position
your first shape with the glue roller, now use your glue roller to
attach the other seven shapes to form a circle.

Step 3
Cut the remaining two squares in half to form four triangles and
attach these to the corners of your card.

Step 4
Finish the card by attaching a small brad in the centre.

Top Tip:
Fold all of your squares before starting to make the
card, this will be much quicker for you.
Co-ordinating the colour of your card with the colour of your
papers will give a more professional look.
