

## ODDITIES BOX - PAGE 1 OF 2

1. To create the Base Box, glue the Front to the bottom edge of the Base, making sure the Front sits on top of the base.
  2. Glue the Sides to the Base and Front pieces, ensuring that they sit on top of the base.
  3. Taking the Back, glue to the Base and Sides, making sure the Back sits on top of the Base.
  4. Inside the Base Box, glue the Step Front into the bottom sides of the Base Box.
  5. Glue the Step Back piece in to the box on the opposite side to the Front Step piece.
  6. Glue the Sides into the bottom sides of the Base Box.
  7. Without glue, place the False Bottom into the Base Box, so that it sits on the step.
  8. To make a Side Box. Glue the Back to the back edge of the Base, making sure the Back sits on top of the Base piece.
  9. Glue the Sides to the Back and Base pieces, ensuring that the Sides sit on top of the Base.
  10. Glue the Top to the Back and Sides, making sure that the Top sits on top of the Back and Sides.
  11. Repeat steps 8 to 10 to make another Side Box.
  12. Use one of the Side boxes to create the Inner. Glue the Shelves into the inside of the Side Box to create equal spaces between each shelf.
- Optional.**  
If using the Dividers and Top Level Divider.
- Glue the Top Level Divider to the top of the Inner Box so that the cut out corner sits next to the cut out in the Inner Box Top. Glue a Shelf to the bottom of the Top Level Divider.
- Repeat this step by placing another divider below this shelf to create a level for the next shelf.

## ODDITIES BOX - PAGE 2 OF 2

Using the shelves as a guide, glue the Shelf Fronts in place, making sure the Shelf Fronts sit on top of each Shelf and at the Base of the box.

To make Inner 2 in the other Side Box, glue the Shelves in place using the Divider as a guide to ensure the correct spacing.

Glue the Divider into the centre of the central section.

Glue the Shelf Front in place on the top section, making sure the Shelf Front sits on top of each Shelf.

To make a Half Drawer, take the Base and glue the Back piece to the back edge of the base, making sure that the Back sits on top of the Base.

Glue the side pieces to the edge of the Back and Base pieces, ensuring that the sides sit on top of the Base.

Glue the Front to the Sides and Base. Making Sure that the Front sits on top of the Base.

Repeat steps 16 to 18 to make the remaining Half Drawer.

Use the same method as steps 16 to 18 to create the Full Drawer

To create the Lid, take the Top, glue the Front to the long edge of the Top piece, ensuring that it sits on top of the Top piece.

Glue the side pieces to the Top and Front pieces, making sure they sit on top of the Top piece.

Glue the Back to the Sides and Top.
