

PENCIL CASE BOX

1. Cut out the template, score along the dotted lines and cut along the solid lines. If you are using the SVG version these will have been done for you.
2. Valley fold along the green dotted lines.
3. Fold the template and glue the tabs to their adjacent sides to create both sides of the box. **DO NOT** glue the tabs on the ends of the triangle ends.
4. Close up the box the lid and add a craft magnet or hook and loop to the lid flap to close. Decorate with your mats & layers. If using the SVG mat & layers, all layers are on one file. Please delete the files you don't want before cutting.
