

WARDROBE

1. Take the Wardrobe Base and glue the Back piece to the long edge of the Base ensuring that the hinge mechanism is pointing away from the Back Piece, also that the Back sits on top of the Base piece.
2. Glue the side pieces in place, gluing them to the edge of the Base and the Back piece.
3. Taking the Shelf, glue in place inside of the wardrobe.
4. Glue the Top piece to the top edge of the back, ensuring that it sits on top of the Back.
5. Whilst the glue is still wet from attaching the Top piece, slot the Doors into the holes located on the Top and Base. Ensure the Top is pressed back into place, to hold the Doors in place.
6. To make the lower section of the Wardrobe, glue the Lower Back to the long edge of the Lower Base piece making sure that the Back sits on top of the Base.
7. Glue the Lower Sides to the edges of the Base and Back, making sure that they sit on top of the base.
8. Glue the remaining Side piece to be a divider in the centre of the Base piece.
9. To make the drawers, take the Base and glue the Back piece to the back edge of the base. Making sure that the Back sits on top of the Base.
10. Glue the Side pieces to edge of the Back and Base pieces, ensuring that the sides sits on top of the Base.
11. Glue the Front to the Sides and Base, making sure that the Front sits on top of the Base.
12. Repeat steps 9 to 11 to make the remaining drawer.
13. Glue the main Wardrobe section to the centre of the Top of the lower Section.
14. Taking the Decoration Base, glue the Decoration Front to the long front edge of the Base, ensuring that the Front sits on top of the Base.
15. Glue the Decoration Sides to the Front and Base, making sure the Sides sit on top of the Base.
16. Glue the Decoration Base to the Top of the Wardrobe.
